

Decontamination Services

RFG/MPW offers decontamination services for a wide range of circumstances by removing, neutralizing or destroying any harmful substance, such as coronavirus (COVID-19).

We systematically decontaminate cleanrooms, process equipment, fume hoods, food and beverage facilities, entire buildings and any other contaminated area.

In both emergency and scheduled situations, RFG analyzes the problem and creates a thorough, safe and cost-effective strategy. We routinely staff and complete projects which call for a substantial labor force.

NAICS Code 561210

PREVENTATIVE DEEP CLEANS

Highly trained in fall protection, mobile lift/equipment operation and all other aspects of deep clean safety, RFG/MPW customizes deep clean plans to meet project/construction schedule deadlines, as well as production and OSHA requirements.

TYPES OF DECONTAMINATION

- **Viral/microbiological (includes coronavirus/COVID-19)**
- **Chemical**
- **Heavy metals**
- **Oil and PCB**
- **Process equipment and tanks**
- **Closure of RCRA hazardous waste storage areas**
- **Entire facilities/buildings**
- **Lead**
- **Animal fecal matter**

CLEANING TECHNIQUES

- **Water jetting (10-40k psi)**
- **Chemical cleaning**
- **Triple-wash-triple-rinse**
- **Confined space entry**
- **Manual scraping of solid chemicals**
- **Concrete scarifying**
- **Particulate air filter vacuums**
- **Bleach solutions**
- **Use of HEPA negative air machines**
- **Manual cleaning**

INDUSTRIES SERVED

- **Automotive**
- **Food & Beverage**
- **Manufacturing**
- **Petrochemical/Refining**
- **Power Generation**
- **Pulp & Paper**
- **Steel**
